ENVIRONMENTAL TOXICOLOGY AND CHEMISTRY

The Official Journal of the Society of Environmental Toxicology and Chemistry (SETAC)

Editor-in-Chief: **C. H. WARD,** *Department of Environmental Science and Engineering, Rice University, Houston, TX 77251, USA*

Environmental Toxicology and Chemistry, the official journal of the Society of Environmental Toxicology and Chemistry, is dedicated to furthering scientific knowledge and disseminating information on environmental toxicology and chemistry, including the application of these sciences to hazard assessment. The journal provides a forum for professionals in education, industry, government and other segments of society involved in the use, protection and management of the environment and the welfare of the general public. *Environmental Toxicology and Chemistry* is divided into three sections, each with its own editor: environmental chemistry, environmental toxicology and hazard assessment. Interdisciplinary in scope, the journal includes integrative studies involving components of classical toxicology, physiology, biology, microbiology, organic, environmental and analytical chemistry, anatomy, genetics, ecology, soil, water, atmospheric sciences and economics.
